

St Josephs Catholic Primary School

“Making our School Better”

Our children deserve the best education we can provide – so we are constantly trying to improve.

Below is a summary of areas we are working on to make our school outstanding. These priorities have been chosen after considering changes to the curriculum, by looking at what Ofsted have said and by analysing at our test results.

Priority 1

- **Develop leaders at every level** in the school to bring about excellence in outcomes for all pupils

Priority 2

- **Ensure lesson delivery throughout the school is outstanding** and utilises evidence based teaching techniques that engage every pupil

Priority 3

- Consolidate the good pupil conduct and high quality attitudes to learning through **better involvement of parents**

Priority 4

- Refine **challenge and consistency across the curriculum**, - but especially for reading, writing and maths - so pupils are engaged and motivated

Priority 5

- Embed assessment systems to ensure that teaching accelerates pupil progress to **better than the national average for all pupil groups**
